

# SmartGolf: One Swing, One Point.

The world's most precise AI golf trainer — now with tokenized swing rewards

Swing real clubs. Train with AI. Earn SGi tokens. Get rewarded for your effort.

Exchange listing is coming — and players are already swinging.

- Why SmartGolf?

- AI golf training is real – not a concept
- Backed by PGA instructors and protected by global patents
- SGi token ecosystem built on top of proven real-world usage

- Key Metrics:

- 10+ years of R&D
- 4,200+ SmartGolf units shipped to 7+ countries
- 300K+ swings analyzed
- Patents granted in multiple countries

- Early Investor Benefits

- 50% token discount (private round)
- Up to 5% referral reward
- Governance & staking rights

- Token Utility

- Earn SGi by real swing training (Swing-to-Earn)
- Spend on coaching, NFT clubs, tournaments
- Burn model + staking = scarcity + yield
- Real product utility, not just DeFi promises

- Proven in the Field

- Invited as partner at VivaTech (France) and Expand North Star (UAE)
- Used by PGA pros (JJ Wood & Steven Parker, Steve Jurgenson)
- Adopted in education programs (Rice University STEM)

- Roadmap Highlights

- Q2 2025 – Token smart contract deployed (SGi live on-chain)
- Q3 2025 – Launch staking & utility token features (CEX listing under partner review)
- Q4 2025 – Activate NFT swing minting & DAO voting rights

SmartGolf isn't just an idea — it's already transforming training for players worldwide.

Join the next revolution in sports tech. Let's build the future of golf. [<https://smartgolf.io> ]
